97 YEARS OF QUALITY, DESIGN AND CUSTOMER SERVICE

Pali's history, to which 4 generations of our family have contributed, spans nearly a century.

Since 1919 the company has undergone many changes. From traditional hand crafted methods of manufacturing one piece at a time to the utilization of advanced technologies today.

Our innovative capability and dynamic vision are family characteristics that drive our willingness and commitment to learn and improve using care and courage. Even though everything has changed in production methods, demand, and styles, one thing still remains: the love for a finely crafted product made with great care and craftsmanship.

Each piece is created with as much attention and devotion as it was in our first workshop. We understand what children need to feel safe and comfortable, and what parents need to have peace of mind.

Today, furniture is a reflection of your personality and style. Pali understands this concept and it is why we offer a great variety of designs for the most discriminating consumers. No matter your style, Pali has the furniture that is perfect for you and your baby.

Pali's furniture is lovingly made by our family for yours

From 1919 to 2016, many extraordinary changes have occurred throughout the world, but one thing has remained the same and that is the love you have for your baby. All of us at Pali take enormous pride in our devotion to family; ours and yours!

So sit back, relax, and flip through our catalog featuring our fabulous collections ranging from cool contemporary, marvelously modern, to totally traditional.

If you have a style in mind, we have it!
